The MOC was create with [LEGO Bricklink Studio](#) software.

It was verified for collisions and stability but may not have the same resistance as an official set.

Part numbers provided in the parts list, use the [Rebrickable](#) catalog.

Some parts may have reference variations between the instructions and part numbers, caused by minor mold changes and catalog updates, but it will not affect building the MOC.

The images and text description are additional information to help to identify the required parts to build the MOC.
